6.5	470 / 15' 05"	193 / 6' 04"	460/25/25	7
7.0	482 / 15' 09"	201 / 6' 07"	460/25/25	7
7.5	494 / 16' 02"	208 / 6' 10"	460/25/25	7
8.5	512 / 16' 09"	225 / 7' 05"	490/26/29	7

characteristics:

The 2007 **Ezzy Freeride** has the forward, deep-draft profile of our 2007 Ezzy Wave SE. The Freeride feels locked-in on the reaches and de-powers on the fly for jibes and maneuvers. With the addition of an extra batten below the boom, the Freeride has increased power and stability. The foot rakes nicely for speed and also for bump 'n' jump sailing. The materials and construction of the Freeride are tough, made with our Spectra X-film throughout and all seams are double taped and double sewn. The Freeride contains no monofilm and is designed to last for years.
