

FEATURES AND BENEFITS:

Our Ezzy Endo-Batten seam construction gives symmetry to both tacks.

The profiled mast sleeve makes mast rotation smooth.

Unbreakable RBS battens.

A two-ply leach reinforcement for extra durability.

The sail's body is made with our light-weight and strong Spectra® X-Film.

Screw batten tensioners give less weight and a lower profile.

A lower clew and lower boom cut-out just for kids.

A vinyl window provides added durability and long-lasting visibility.

Built-in mast pad.

KID'S EAGLE

A durable, high performance sail for kids 9 to 13 years old.

Kids learn to windsurf fast. Once they grasp the basics, they need a sail that has the features of an adult sail, but scaled to fit their size. The Kid's Eagle is proportioned to allow the child to sail in perfect balance. Each batten is profiled to give the exact shape needed. The short luff makes uphauling and waterstarting easy for kids.

You have two mast options for the Kid's sail: use our standard 370 cm top with our Kid's bottom, or purchase our complete Kid's mast.

The Eagle boom has a reduced diameter grip and adjusts from 4' to 4'11".

The mast comes with a stubby base preset for a skinny mast.

Purchase the Kid's Eagle sails and rig components separately, or as a package.

Kid's mast weighs 1.3 KG (2.86 lbs.)

Adjustable from 4' 00" to 4'11"

Kid's base fits standard cups

SAIL SPECIFICATIONS:

size	luff	boom	mast top	mast bottom	battens	weight
2.8	300 / 9' 10"	130 / 4' 03"	standard 370 top or Kid's 370 top	Kid's bottom	4	1.98 kg / 4.04 lbs
3.3	320 / 10' 06"	143 / 4' 08"	standard 370 top or Kid's 370 top	Kid's bottom	4	2.30 kg / 5.06 lbs
