

Photographer Darrell Wong captures Graham Ezzy on a 6.5 Freeride 5.

FREERIDE V

Size	Luff min-max	Boom min-max	Mast
5.5	438 - 440	175 - 183	430
6.0	452 - 455	183 - 190	430
6.5	467 - 470	189 - 198	460
7.0	478 - 481	197 - 205	460
7.5	488 - 491	205 - 212	460
8.5	504 - 508	220 - 228	490
9.5	514 - 518	238 - 248	490

Speed. Balance. Control. The Freeride 5 is designed for sailors of all levels who take their windsurfing seriously. Whether you want to be the fastest on the water or make perfect jibes, the unique draft-forward profile of the Ezzy Freeride allows you to sail with greater efficiency and less effort. The Freeride 5 is perfect for flat water blasting and bump'n'jump sailing.

Strong and light and no monofilm.

The Technora and Tri-Lite materials used in the Freeride makes it undeniably the finest handcrafted freeride sail in the world.

Easy to tune. The color coded downhaul marks and the color coded outhaul cords, making the sail's massive wind range easy to navigate.

And of course, our quality is guaranteed because we rig every sail in our factory before it's shipped.
