

LION

Inspired by 8-time world champion Kevin Pritchard, the Lion is the new king of cambered freeride sails. It's a predator that is bred to hunt down other sailors and devour them. The Lion is fast flying over the water, and fast to get on the water—easy to rig with Ezzy cams. The Lion is also easy to waterstart and uphaul with a narrow mast sleeve that doesn't hold excessive heavy water. With a wide wind range, you need fewer sails, meaning less time deciding what to rig. The Ezzy Lion is light, making jibes snappier

and more consistent. Unparalleled Ezzy build standards guarantee the Lion is strong, using the latest high-tech fabrics (like Technora, Spectra, and Color-Fusion Trilite). Without a single speck of monofilm, the Lion has the same Ezzy construction developed to survive years of use and abuse. And of course, like every Ezzy, each Lion is rigged and tuned in the factory so that it is ready for you right out of the bag. Sail longer, stronger, faster, and more competitively with the new Ezzy Lion.

Size	Luff min-max	Boom min-max	Mast	Cams
6.0	446 - 448	185 - 190	430	2
6.5	456 - 458	194 - 199	430	2
7.5	479 - 481	209 - 214	460	2
8.5	504 - 506	223 - 228	490	2
9.5	515 - 517	241 - 247	490	2
