

ZETA: Power Wave

You might remember David Ezzy's North Zeta from the late 80's and early 90's. The original Zeta shocked windsurfing back then by being the first 5-batten wave sail. Fast forward a few decades and some intensive R&D, and the Ezzy Zeta rides again.

The Zeta's constant drive and easy acceleration make the Zeta the perfect sail for onshore waveriding and bump'n'jump conditions.

In fact, the Zeta is Graham Ezzy's sail of choice for all professional wave competitions. The Zeta's stable profile gets going right off the beach: *"When I'm competing, I have only 12 minutes in each heat to do all my jumps, wave rides, and tricks. I need a sail that planes early and flies around fast so that I can make the best use of every minute of my heat. The Zeta has constant power*

that drives through the lulls, currents, and chop so that I am always planing even when the conditions are tough. The luff panel allows the Zeta to de-power, making it perfect for all my tricks—like backloops, takas, and wave rides."

The Zeta features our calibrated rigging system which means you can rig your sail with exactly the same precision every time. Just downhaul until the line on the gauge lines up with the bottom of your mast and outhaul using our indicator cords.

And like every Ezzy sail, the Zeta is rigged, calibrated, and thoroughly checked before it goes in the bag and out the door of our factory.

This Ezzy Zeta is powerful, easy to control, and equally at home on a wave at Hookipa or screaming across your bay on a windy afternoon.

Size m ²	Luff Min	Luff Max	Boom Min	Boom Max	Ezzy Mast Base/Top
3.7	359	362	139	148	340 / 370
4.0	369	372	143	152	370 / 370
4.2	379	382	148	157	370 / 370
4.5	390	393	152	161	370 / 400
4.7	402	405	156	165	370 / 400
5.0	414	417	156	166	400 / 400
5.2	420	423	160	170	400 / 400
5.5	432	435	165	175	400 / 430
5.8	440	443	169	179	430 / 430
6.4	454	457	179	189	430 / 430
6.8	477	480	181	190	460 / 460
