

HYDRA SPORT

Crossover Foiling and Freeride

Ezzy's first foil crossover sail, the Hydra Sport is designed for foiling but still works on a traditional freeride board with a fin.

The 3/4 batten above the boom allows the Hydra to gently depower when on the foil—this same depowering makes transitions easier both on the foil and on a fin. The Hydra Sport's

foot is low enough to lock-in on a foil or a freeride board but not so extreme that it catches in the water when finning.

Like all of our sails, the Hydra Sport has been rigged, checked, and calibrated in our factory.

The Hydra Sport is a great choice for anyone who wants a light sail designed for the foil that also works for freeriding

Size	Luff	Luff	Boom	Boom	No. of	Ezzy Mast	Base	Weight
m ²	Min	Max	Min	Max	Battens	Base/Top	Extension	(Kg.)
3.7	353	358	131	141	4	340 / 340	14 - 18 cm	2.55
4.7	395	400	151	164	4	370 / 400	10 - 16 cm	2.98
5.7	434	439	166	179	4	400 / 430	20 - 24 cm	3.34
6.7	454	459	185	199	5	430 / 430	24 - 29 cm	3.89
8.1	482	487	209	223	5	460 / 460	22 - 27 cm	4.27
