

TAKA

BUILT FOR DEDICATED WAVE SAILORS

The Taka is our hard-core wave sail. Every few years, the sail's evolution makes a leap forward. This year we were able to reduce the weight so much that the new 4.7 weighs as little as the old 4.1 Taka. And we changed the vinyl window to a low-stretch, dyneema enforced film that better transfers gusts of wind into board speed and also makes the Taka more stable in high winds.

Like in previous models, the new Taka has 3 full battens and a 3/4 batten that allows the sail to luff, which means that it de-powers when

sheeted out or rotated into the wind, making the sail go completely neutral in maneuvers. Surprisingly, the luffing also makes the Taka an ideal sail for learning how to foil.

In our factory, every Taka is rigged, the quality is inspected, and rigging gauges calibrated so that you can unroll the Taka and rig it perfectly the first time out of the bag—and every other time.

Lighter, more stable, and quicker to get going, the Taka continues the tradition of being a no-compromise wave sail.

Size m ²	Luff Min	Luff Max	Boom Min	Boom Max	Ezzy Mast Base/Top	Weight (Kg)
3.8	367	371	133	143	340 / 370	2.55
4.1	377	381	140	151	370 / 370	2.75
4.5	388	392	148	159	370 / 400	2.89
4.7	394	398	152	163	370 / 400	2.96
5.0	400	404	156	167	370 / 400	3.03
5.3	413	417	162	172	400 / 400	3.16
