

EZZYWAVE

A New Wave Sail For All Conditions

A new sail is born: the Ezzy Wave.

My goal with the Ezzy Wave was to combine the power and stability of our Zeta, with the lightness and handling of our Elite.

Getting the Ezzy Wave right was a challenge. It had to satisfy both my son Graham's need for power in European on-shore conditions and 8x world champion Kevin Pritchard, who demands lightness and maneuverability for side-off wave riding.

The Ezzy Wave is built to my quality standards while coming in about 200 grams lighter, per sail, than the Elite. Weight reductions came in a number

of areas. I replaced the vinyl window with Spectra-reinforced X-ply, and the clew design is lighter, which in addition to saving overall weight, reduces the swing weight. For comparison, the new 4.7 is now the same weight as last year's Elite 4.2, making the Ezzy Wave one of the lightest wave sails in the world.

As with all of our sails, the Ezzy Wave is rigged and calibrated with a load cell, then meticulously checked over in my factory.

The Ezzy Wave comes highly recommended.

- David Ezzy

Size m ²	Luff Min	Luff Max	Boom Min	Boom Max	Ezzy Mast Base/Top	Number of Battens	Weight (Kg)
3.0	336	340	130	139	315 / 340	4	2.46
3.4	348	352	134	143	340 / 340	4	2.57
3.7	361	365	139	148	340 / 370	4	2.67
4.0	369	373	142	152	370 / 370	4	2.72
4.2	377	381	145	155	370 / 370	4	2.79
4.5	388	392	149	159	370 / 400	4	2.88
4.7	398	402	152	162	370 / 400	4	2.95
5.0	409	413	157	167	400 / 400	4	3.00
5.2	421	425	162	172	400 / 400	4	3.15
5.5	427	431	165	175	400 / 430	4	3.25
5.8	440	444	167	177	430 / 430	5	3.45
