

**EZZY WAVE**

## A Wave Sail For All Conditions

The Ezzy Wave is our sail of choice, and the sail that we recommend to everyone. The Ezzy Wave carries the Ezzy tradition of easy handling and quality while also being one of the lightest wave sails on the market, with the 4.7 weighing in under the 3 kg mark.

With the Ezzy Wave, we aimed to make a sail that provides early planing and power for onshore conditions as well as dynamic maneuverability and handling for side-shore wave riding.

Reshaped, the new Ezzy Wave is flatter in the batten above the boom, making the sail feel lighter and easier to move around.

This makes the sail both much better for jumping maneuvers and easier to handle on the wave. This change also improves high wind handling.

In our factory, we rig every sail, we inspect our work, we tune the battens, and we calibrate the downhaul gauge with a load cell, so that when you unroll your sail, it will rig perfectly the first time out of the bag—and every other time.

The Ezzy Wave makes us proud because it represents our lifetime of dedication to the craft of sailmaking and most of all our love of windsurfing.

Size m <sup>2</sup>	Luff Min	Luff Max	Boom Min	Boom Max	Ezzy Mast Base/Top	Number of Battens	Weight (Kg)
3.0	336	340	130	138	315 / 340	4	2.44
3.4	349	353	135	143	340 / 340	4	2.55
3.7	362	366	139	148	340 / 370	4	2.62
4.0	371	375	142	152	370 / 370	4	2.69
4.2	379	383	146	156	370 / 370	4	2.76
4.5	389	393	150	160	370 / 400	4	2.82
4.7	398	402	152	162	370 / 400	4	2.87
5.0	409	413	157	167	400 / 400	4	3.01
5.2	422	426	162	172	400 / 400	4	3.12
5.5	428	432	165	175	400 / 430	4	3.18
5.8	440	444	169	179	430 / 430	5	3.47
6.3	453	457	179	189	430 / 430	5	3.65
