

EZZY WAVE

Performance and Versatility

Who is the Ezzy Wave for?

Everyone: from hardcore Maui wave riders, to Atlantic jumpers, to lake sailors. It's a one-size-fits-all, no-compromise sail and is the only wave sail we use, no matter the conditions. We believe a great wave sail must be versatile in use.

What's new for 2023?

1) Refined luff curve to make the draft/power/pull the same across every size.

2) The battens are slightly pulled back from the luff. This is very subtle, so you probably will not notice it when you first look at the sail. The effect is that the sail depowers and flips more easily—a subtle difference

but with a big upside that you can really feel.

3) The biggest visual change is in the outline on the smaller sails. The 4.0 and down have an extended clew. This gives the smaller sails more of a longer boom feel. The biggest advantages are: a) better stability, which is really noticeable for jumping and b) you don't need super short booms for the smaller sizes.

4) All sizes have a bigger window for more visibility. You'll be surprised how much this matters!

5) The bigger sizes have a more direct power delivery and get going faster when the wind is light.

We mean it when we say our

quality is our strength.

We work with the top cloth manufacturers in the world to have material that balances weight and strength. In our factory, every Ezzy Wave is rigged, the quality is inspected, the battens are tuned, and the rigging gauges are calibrated so that when you unroll the Ezzy wave it will rig perfectly the first time out of the bag—and every other time.

Is the Ezzy Wave the right sail for you?

It's the sail we use. If you want a high performance, light weight, durable wave sail with balanced power and a wide wind range, the Ezzy Wave is the sail for you too.

Size m ²	Luff Min	Luff Max	Boom Min	Boom Max	Ezzy Mast Base/Top	Number of Battens	Weight (Kg)
2.8	325	329	127	137	315 / 340	4	2.22
3.0	338	342	133	143	315 / 340	4	2.30
3.4	351	355	139	149	340 / 340	4	2.40
3.7	364	368	145	155	340 / 340	4	2.51
4.0	372	376	145	155	340 / 370	4	2.63
4.2	380	384	145	155	370 / 370	4	2.75
4.5	389	393	150	160	370 / 370	4	2.85
4.7	397	401	154	164	370 / 400	4	2.93
5.0	407	411	159	169	370 / 400	4	3.01
5.2	415	419	163	173	400 / 400	4	3.11
5.5	423	427	168	178	400 / 430	4	3.18
5.8	438	442	171	181	430 / 430	5	3.48
6.3	454	458	178	188	430 / 430	5	3.65
