

EZZY LION

Who's the Lion for?

For advanced and expert sailors who love speed but don't want the hassle of a race sail.

What makes the Lion special?

The Lion delivers the perfect mix of power and control. Its narrow mast sleeve makes waterstarts and uphauling easy, and you can rig it as a two-cam, single-cam, or even no-cam sail—your choice.

What else?

The Lion feels quick and slippery through the air. A deeper profile above the boom gives it early planing power and rock-solid stability. And because the scrim reinforcements don't absorb water, the sail stays light no matter how long you're out there.

Why buy a Lion?

Built with lightweight scrim and Dyneema X-Ply for maximum strength with minimal weight. Our calibrated downhaul system takes the guesswork out of rigging.

It comes with extra cams to fit any mast.

The removable tack pulley swaps easily for a D-ring if you're using a Duotone ratchet extension.

The Lion is rigged, tuned, and checked in our factory—so it's ready to go right out of the bag.

Is the Lion right for you?

If you're after high-performance freeriding with zero fuss, the Lion's your sail.

2026 Lion RIGGING SPECIFICATIONS:

Size	LUFF		BOOM		MAST		Battens	Cams	Weight
	Min	Max	Min	Max	MCS/IMCS				
6.0	445	448	184	190	430/25/21		6	2	4.03
